

I design products from scratch *and ship them*. Three years of taking ideas from user flows and Figma systems to production React & Next.js - owning discovery, UX, UI, motion and the frontend that makes it real, so nothing is lost between the idea and the browser.

## SKILLS

### Product design

User flows, wireframing, UI design, design systems, prototyping, motion, branding & logo design

### Design tools

Figma, Zeplin, Adobe Photoshop, Canva

### Build

React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind, Bootstrap, Shadcn UI, Aceternity UI

### Creative development

Three.js, WebGL, GLSL shaders, particle systems, GSAP, Lenis

### Practices

Accessibility, responsive design, performance optimisation, component architecture

### Platforms

Vercel, Shopify, WordPress (Elementor), Git & GitHub

## SELECTED PRODUCTS

### AthLnk athlete recruitment platform

product design + frontend · athlnk.com

*100+ reusable components · 48% faster*

- Led product design for a platform connecting athletes, coaches and scouts: a Figma design system and motion that keeps browsing profiles fast and clear.
- Built the product end to end - athlete profiles, search & filters, agency and university pages, and deals management.

NEXT.JS · TYPESCRIPT · TAILWIND · ACETERNITY UI · FIGMA

### Clear Place brand marketing platform

dashboard design + frontend · clear.place

*40+ modules unified in one dashboard*

- Designed and built the CRM dashboard, payment portal and kanban boards, keeping dense data readable and quick to act on.
- Unified FlexLinks, dynamic QR codes, FlexPages, events, social scheduling, BrandKit, analytics and CRM into a single product.

REACT.JS · BOOTSTRAP · DASHBOARD UX

### GreenFrog Cleaning service booking

brand + booking product · greenfrogcleaning.com

*+48% booking-flow completion · built for 90% mobile traffic*

- Designed the brand mark and a mobile-first booking flow, plus the CRM and payment flows the team runs every job from.

REACT.JS · BOOTSTRAP · SWIPER.JS · LOGO DESIGN

## SELECTED PRODUCTS (CONTINUED)

### Foreward Golf

golf coaching brand site

brand, web design + development · foreward.golf

*+30% inquiry conversions · 86% faster load*

- Handled the logo, graphics and copy, and built a zero-gimmick site with parallax sections and an integrated booking / inquiry flow.

REACT.JS · BOOTSTRAP · GRAPHIC DESIGN · CONTENT WRITING

### Nursing Handoff

AI clinical handoff platform · freelance

frontend

- Built the frontend for healthcare handoff software integrated with Cerner / Oracle Health's EHR, presenting AI-generated shift summaries and an embedded AI chat assistant.
- Handled patient-summary API integration: response parsing, version history and real-time update diffing.

REACT.JS · TYPESCRIPT · TERRA UI · REACT QUERY · SOCKET.IO

### Cocogirl AI

AI character chat

product design + frontend

- Designed the messaging flows and brand mark for a chat experience built around character profiles, and built it in Next.js with Shadcn UI and subtle motion.

NEXT.JS · TYPESCRIPT · TAILWIND · SHADCN UI · MESSAGING DESIGN

### The Flow

this portfolio

product design + design engineering

- Designed and built a portfolio told as one stream of water: a Three.js stream that follows the scroll, GLSL liquid inside every vessel and a reflective day-and-night lake.

NEXT.JS · TYPESCRIPT · THREE.JS · GLSL · WEBGL

## EXPERIENCE

### Optisoft Business Solutions

Jaipur, RJ

Feb 2024 - Present

*Frontend Developer*

- Shipped 30+ production features in React.js and Next.js on a reusable, modular component architecture.
- Turned Figma designs into pixel-perfect, responsive, cross-browser interfaces, cutting design-to-dev handoff revisions by 76%.
- Improved page load time by ~80% through rendering optimisation and refined state management.
- Upheld code quality and accessibility through peer code reviews and Git workflows across a 4-developer team.

### Optisoft Business Solutions

Jaipur, RJ

Nov 2023 - Feb 2024

*Frontend Developer Intern*

- Turned Figma mockups into responsive, interactive pages with a consistent UI across 6+ client projects.
- Implemented form validation, conditional rendering and interactive UI states, and resolved 40+ UI bugs across devices and browsers.

## EDUCATION

### University of Rajasthan

Jaipur, RJ

Graduated May 2024

Bachelor of Computer Applications (BCA)
